DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim defines an indefinite negative limitation in “without ...protruding”. For example, the angularity of the attachment member could be such as to protrude at a severe angle to the roof panel. Suggest using the words --with an end portion of the attachment member being located within a thickness of the bracket--.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 6-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Watanabe et al.. Watanabe et al. has roof trim 30, bracket member 38, accessory 12, attachment member 16 engaging a roof panel at 28A, temporarily holding the accessory 12 in figure 4, and another position in figure 5 wherein the attachment member 16 protrudes from a back

Art Unit: 3612

side of the bracket 38 engaging the roof panel and fastening all of members 12, 38, and 30 to the roof panel, and inserted body 20.

As to claim 7, Watanabe et al. has opening 32 in the bracket, opening 36 in the roof panel, assembly shown in figure 4 in first relative position and figure 5 in a second relative position wherein the attachment member is stressed outwardly by insertion body 20 at 44A/46.

Allowable Subject Matter

5. Claims 1-5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

6. Applicant's arguments filed 1/18/2005 have been fully considered but they are not persuasive. Please see the detailed action above.

Conclusion

7. This is an RCE of applicant's earlier Application No. 10/602,829. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3612

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
